

EnergyCAP Enterprise User Manual

Welcome to the EnergyCAP Enterprise User Manual. For information about our other products, visit the [EnergyCAP website](#).

Use the navigation bar in the left pane of this HELP window to navigate quickly to topic group folders and individual topics. The folders represent primary categories for HELP topics. 'Drill down' to additional topics and topic groups by clicking the desired folder.

Use the **Search** option in the upper right corner of this window to input your search query. Topics containing content matching your query will be displayed.

The EnergyCAP Enterprise User Manual does not exist as a printed resource.

Support resources can be found in two primary locations:

1. This User Manual (which includes all software operation information), and
2. [EnergyCAP Support](#), our internally-managed and operated technical support site (which includes our growing technical [Knowledgebase](#) of support issues and downloads).

For more information, visit this [Support](#) page, or our [company website](#).
